---

## PRINCIPAL CHARACTERISTICS:

Clear yellow liquid  
Density at 25°C : 0,915g/cm<sup>3</sup>  
Insoluble in water  
Miscible with oils and organic products

## APPLICATIONS:

**Motorstor protects against corrosion in closed or semi-closed areas.**

Motorstor protects against corrosion in closed or semi-closed areas.

It's chemical properties ensure that it is effective even in the presence of water (in vapor or liquid form) .

**It can be used in a number of ways :**

- By soaking or spraying – for the transportation or storage of parts.
- By mixing with oil, diesel or petrol : protects motors, hydraulic circuits, compressors....

## USAGE :

MOTORSTOR is used pure or diluted from 0.5 to 5% in oils or diesel, depending on the case.

## STORAGE:

Motorstor is sold in 200 and 60 litre barrels (other sizes available on request).

Two years storage under normal conditions (away from extreme temperatures)
